📍 31 GUL ROAD, SINGAPORE

## Profile

---

As a talented and reliable full-stack developer, I have built numerous websites, including e-commerce platforms and corporate homepages, using JavaScript frameworks such as React, Vue, Next.js, Express, and Shopify. I also have extensive experience creating high-quality websites and landing pages with WordPress.

In addition to web development, I specialize in iOS and Android app development, leveraging my expertise in Flutter, React Native, and Kotlin.

I take deadlines seriously and always deliver my work on time because I understand the value of efficiency. I believe in maintaining open and consistent communication throughout the project. My work is not complete until it meets the highest standards and you are fully satisfied with the result.
